

## Montreal West single family house sales for the period 2013 through 2020.

### Notes

1. Not all listings gave the most recent valuations.
2. **Civic addresses listed in red** indicate houses sold 2 or 3 times within the period 2013 to 2020. Renovations may have been made and the property "flipped".
3. Some data, such as "Year built", was not given in listing summaries for various years, or, I hadn't transcribed what was available -- unfortunately sometimes a little lazy.
4. Selling prices are colour-coded: over \$1M are pink, \$900K to \$999K are green, \$800K to 899K are goldenrod, etc.
5. Houses sold more than once have a "Years between sales" that reflect the difference in the calendar years of the sales which do not accurately account for the difference between actual dates of sale.

#	Address	Type	Year of sale	Selling Price	%		Days on m'k't	Asking	Amount above asking	% diff. above asking	Year built	% same house growth	Years between sales
